hours to knock the door down. His men didn't have room to work, and as it had required at least six sledge hammers going at once to make the first Big Meetings in Plattsburg and Malone door give way he knew it wouldn't be possible to weaken the one leading directly into the gambling rooms. The raiders could hear the men on the inside breaking up the gambling junk and they could smell the smoke of the burning racing sheets, charts, cards, roulette wheels and other stuff

Boettler pondered a moment and then said: "Break through the wall." As compared with the barricaded doors the plaster wall was tissue. But boring through even this took time, because police were unable to give a full swing their sledges. They hammered until heir arms ached and finally they got hole in the wall large enough to thrust a hand through. "It's all up now!" Boettler yelled

There were three rooms in the basement where one could get a bet on anything from the Pimlico races to a fade at graps. and a Hummer in Ogdensburg, Where Half the Town Turned Out to Greet Him-Hits at Roosevelt and Hughes.

OGDENSBURG, Oct. 29.-The interest

with which the Democratic candidate for Governor was received to-day along the Canadian frontier surprised the most sanguine of his friends. It was expressed concertedly in the size of audiences and the prodigality of applause, but there was a certain warm friendliness beneath the usual campaign jingle and flash which was as unmistakable as it was pronounced. Reports of Republican disaffection in the counties of Clinton, Franklin and St. Lawrence were borne out to a certain extent by the quality of the reception extended Lewis Stuyvesant Chanler in a section where a Democrat must walk circumspectly to rise above the suspicion of his neighbors. Such disaffection was admitted to-day by Republican leaders in Plattsburg, Malone and in this city without much show of interest or

"Teft? Oh, Taft is all right," one got by questioning, "but there are a lot of our fellows hereabouts that are shying away from the Governor like a fool colt from an automobile. There is no telling how many, but a lot of them will vote for Chanler. Speeches, arguments, nothing makes any difference. They are plumb set against the Governor, because they think he is too set in his judgment."

In none of the three counties will the Republican leaders predict for Hughes more than a little less than he got before. Careful questioning brought out that the stubborn objection among many Republicans up in the north country to Gov. Hughes is that he's too narrow.

Mr. Chanler's largest meetings to-day and to-night, in Plattsburg, Malone and here, considerably exceeded Mr. Hughes's. Mr. Chanler was inforned by railroad men, both in size and enthusiasm. At Malone the Chanler meeting was twice the size of the Governor's, according to S. J. Flanagan, who sized up both of them. Taken all around, the fast trip along the the northern edge of the State was the most interesting tour Mr. Chanler has made in any part of New York. It served to solidify Mr. Chanler's own belief that ted for evidence, along with shattered he would win handsomely.

"I believe I shall be elected," he told

Through an atmosphere made up of Adirondack forest fire smoke, fog and the haze of red fire sticks, the candidate moved through solidly packed streets to the Seymour Hotel A flock of local committeemen, losing the Lieutenant-Governor in the press at the depot, fluttered here and there mitting cries of woe. Life holds few

as undemocratic and dangerous to the rights of the States.

Then the Judge rounded in on the Governor. He contended that Mr. Hughes was attempting to impose upon the people by a mixture of hypocrisy and humbug which made a sensible man uncertain whether to laugh or swear. As for the raising of the moral issue by Gov. Hughes that was sickening cant, meant only to attract votes. He didn't attempt to do much for one of the Ten Commandments, an important one, the seventh, said the much for one of the Ten Commandments, an important one, the seventh, said the Judge, but in order to get himself relected or to save his party from a good licking he didn't hesitate to return the properties of thousands of men who were interested in houses and kindred business. The Governor's attitude in the Percy-Gray law and the amendments was contemptible, he argued. Gov. Hughes was attempting, he said, to present himself as a defender of the Constitution and a preserver of the morals of the State. He continued, referring to the racetrack law:

DOUBTING ONES SCRAMBLE TO GET ON THE BAND WAGON.

The Governor Answers Chanler's Critieism of the Public Service Commissions and of the State Administration on the Ground of Extravagance.

DUNKIBE, Oct. 29. - Gov. Hughes eached Oswego this morning after the big jump from New York and put in a full day's work in the principal labor centres of Oswego, Genesee and Chautauqua counties. About 10,000 people heard him during the day. It was all Republican country, with the exception of Oswego city, but the Governor's au-CANNON HOPES FOR GAINS, diences were made up largely of factory operatives. There was plenty of ginger in the crowds. The Governor's talk on fair chances alike for the wage earner and the factory owner went straight home and brought the cheers at every period. Speaking first in Oswego in the Richardson Theatre Gov. Hughes took up the charges of inefficiency brought by Mr. Chanler against the Public Service Commission and of extravagance on the

part of the State administration. In his remarks on the extension of transit facilities it is known that the Governor had in mind the Fourth avenue project in Brooklyn. He said:

I am amazed when I read some of the riticisms which have been levelled at our administration during this present campaign. It has been said very recently, as I understand it, that the Public Service Comnission in New York is responsible for the failure to extend our transit facilities. low everybody knows that the city administration there has blocked the efforts to carry out the public improvement in tran-sit facilities laid out by the Public Service Commission, and which that commission is very anxious to proceed with. Why have hey opposed it? They say because city funds are not available for the purpose. Why are they not available? Read the record of extravagance in New York city affairs. Ten years ago the budget of the city of New York amounted to \$64,000,000. ive years ago it was \$88,000,000, and to-day it is \$143,000,000. Read the reports of the reau of Municipal Research and ascertain how the money is squandered, and when e want to advance public improvements, seriously needed by the public, they come forward and charge that we are guilty of obstruction.

If we could have the affairs of New York city honestly and economically managed we would have no difficulty in getting our public improvements. The Public Service Commission is working intelligently to this end, and instead of creating obstructions s meeting obstacles made on the part of hose who could help them and should help them to attain these objects.

A military touch was given the Governor's reception at Fulton by the presence of a company of the Twenty-fourth Infantry. The negro dough boys who were passing through the village on a practice hike stopped long enough to salute the Governor and lend the local reception committee the aid of their band. Mr. Hughes got ahead of his party at the theatre and raised a big laugh by hustling into an entrance marked in big letters "The Bar." He was rescued quickly and landed in safety on the stage.

On the way from Fulton to Batavia the Governor's train stopped for a short time A. M. on December 26 and exhibited a roll of bills and a garnet ring, as alleged by Theodore Volz, one of the star witnesses for the defence, on Wednesday. He denied being in Newark at all.

FARLEY AT A DINNER. Given by St. Vincent de Paul Society to

Mgr. McMahon and Mr. Mulry. Mgr. D. J. McMahon, rector of Epiphany Church and the spiritual adviser of the New York St. Vincent de Paul Society, and Thomas Mulry, president of the Immigrants' Industrial Savings Bank and president also of the St. Vincent de Paul Society in New York, were the guests of honor at a dinner given at Martin's last night by members of the Catholic charitable society and prominent Catholic clergymen of the city. The dinner was inspired by the recent awards of honor conferred by Pope Pius X. upon the two guests at the recom-

mendation of Archbishop Farley.

Upon his recent return from the Vatioan visit the Archbishop carried with him the Pope's commission creating the Rev. Dr. McMahon a Monsignor. Mr. Mulry, who has been the head of the St. Vincent de Paul Society for many years and its prominent charity worker, was invested with knighthood in the Papal Order of St. Gregory.

Herman Ridder, a member of the finance committee of the St. Vincent de Paul Society, presided. At his left and right sat the guests of honor, and with them at the head of the table Archbishop Farley, Mgr. Lavelle and Mgr. Mooney Other prominent clergymen and laymen who were present were the Rev. Joseph Hanselman, provincial of the Order of the Society of Jesus; the Rev. P. J. Hayes, the Rev. E. J. Flynn, Dr. James J. Walsh of the Fordham Medical School, M. J. Scanlan, president of Particular Council of St. Vincent de Paul of New York; George Gillespie, president of the Cathedral Conference; David J. Tilley, vicepresident of Central Council, St. Vincent de Paul, of Boston; George B. Robinson, president of the Catholic Protectory; E. J. Cornelis, president of the Ozanam Association; John J. Deery of the Catholic Home Bureau, President Patrick Mo-Gowan of the Board of Aldermen, Thomas F. Smith, secretary of Tammany Hall, and Frank P. Cunnion, James F. Boyle, J. J. Barry, Dr. Charles McKenna, J. J. Fitzgerald, J. D. Underhill, James E. Dougherty, Richard C. Baker, Patrick F. Bird and Redmond Keating, all members of the Superior Council of St. Vincent de Paul in New York.

Archbishop Farley, who was forced to leave before the after dinner felicitations began, spoke briefly in praise of the two men who had deserved recognition by the Pope. He said that in his recent visit to the Vatican he had had audience with the Holy Father for two hours and that their conversation was largely devoted to the great progress of the Church in America. president of Central Council, St. Vincent

"Mgr. McMahon and Mr. Mulry have
done pioneer work in showing Catholicism
as it ought to be shown before the people
in this country; in showing the Church as standing upon a platform of public good and broad charity. They have taught that Catholic charity is the same as general charity, as American charity, some-thing that is fostered in the widest spirit

of benevolence."

Mgr. Lavelle and Dr. Walsh followed with appreciations. Mr. Scanlan allowed the diners to get a view of some of the practical work Mr. Mulry had done as one in smoothing the way for his society in official circles.

"That the State Board of Charities did

not wipe out all private Catholic chari-table institutions, as it threatened to do, was due as much to the tact and influence of Mr. Mulry as anything else," he said.

AHEARN CUT DOWN \$859,000

GETS LESS FOR HIS BOROUGH THAN HE GOT LAST YEAR.

Fold by the Mayor That He Pays Wages to Too Many Incompetents—Comp-troller Metz Succeeds in Ending "Mr. Folks's Baby Farming Business.' The budget will not be finally made up

antil to-day and it is expected that when the mandatory increases in the fire, police and educational departments are provided for, together with the \$6,000,000 which must be set aside for the redemption of the city's debt, the total will be nearly \$157,000,000. This year's budget was \$148,572,266.

The Board of Estimate had another long session yesterday over the figures. The greater part of the time was given to considering the estimates of the Borough Presidents. President Ahearn of Manhattan, who will be a candidata to succeed himself next year, insisted that most of the men in his department were underpaid. He wanted to raise the wages of the men on the highways from \$2 to

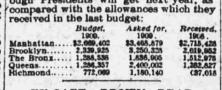

\$2.50 a day and he asked for an additional \$27,000 for that purpose. Mayor McClellan, remembering prob-ably the evidence brought out at the in-vestigation made by the Commissioners of Accounts of the great waste of money on the men employed on the highways, whose hardest labor seemed to be the killing of time, shut up Mr. Ahearn with the remark:

the remark:

"The gentleman can raise the wages of the workers in the department without an additional appropriation, if he so desires, by simply eliminating some of the many incompatents."

Another little incident of interest was

resolution was adopted he exclaimed: "That ends Mr. Folks's baby farming This table shows the money the Borough Presidents will get next year, as compared with the allowances which they
